AIR PURIFIER

RICHTER AP3 Air Purifier

The RICHTER AP3 air purifier is designed for those who value natural materials and strive for a balanced, healthy lifestyle. Manufactured in Germany, the product is inspired by nature, evoking the tranquility and fresh air of alpine forests. We believe that we are not just creating products but crafting an experience for our customers.

Natural Design, German Precision, Unmatched Quality

German expertise is synonymous with worldwide-recognized reliability and quality, embodied in this refined product. Our wooden air purifier represents a harmonious blend of innovation and precision, offering not only technological excellence but also timeless elegance—an experience that becomes part of a premium lifestyle. All of this comes to life in our German factory, where every step of production and assembly is rigorously monitored. Our experts ensure that each product meets our high-quality standards.

- **Craftsmanship:** Each air purifier is uniquely crafted by hand. It combines eco-friendly materials with exceptional design, offering not only cleaner air but also a touch of elegance.
- **Natural Materials:** We use environmentally friendly materials sourced from sustainable origins, which provide aesthetic beauty while also contributing to environmental protection.
- **Sustainable Exclusivity:** Each piece is unique; no two air purifiers are exactly the same, ensuring that your unit is truly one of a kind.
- **User-Friendly design:** The design prioritizes simplicity, ensuring anyone can use it effortlessly. The RICHTER AP3 air purifier has a single, rotating button that allows the users to set the desired power level in seconds.
- **Easy Maintenance:** The filter is easy to replace, making maintenance quick and simple.

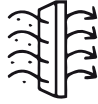

WHERE NATURE MEETS TECHNOLOGY

This easy-to-use device not only enhances the air quality in your home but also brings a touch of elegance to your space. With cleaner air, you will enjoy improved health, better sleep quality, and reduced allergy symptoms, all of which contribute to a greater sense of well-being.

MULTI-LAYER FILTRATION SYSTEM

1. LEVEL - AERO Nylon Pre-Filter

The pre-filter layer immediately captures larger particles such as dust, pollen, mold spores, pet hair, and fibers, preventing them from progressing further into the system.

2. LEVEL - ULTRAPURE HEPA Filter

The high-quality HEPA filter removes the finest particles of dust, pollen, mold spores, pet hair, and dander, ensuring clean and healthy air in your home.

3. LEVEL - ACTIVEPURE Activated Carbon Filter

The activated carbon filter effectively reduces unpleasant odors, harmful gases, volatile organic compounds (VOCs), formaldehyde, tobacco smoke, and food odors, ensuring cleaner, fresher air.

Why choose the Richter AP3 air purifier?

- Unique, modern design
- Simple, user-friendly operation
- Clean and healthy air
- Eco-friendly materials
- Silent operation
- Easy Maintenance
- Limited edition
- Made in Germany

Technical Data

Voltage	230 VAC
Frequency	50/60 Hz
Operating Voltage	184~270 VAC
Rated Speed	2100 RPM
Input Current	0,4 A
Input Power	55 W
Air Flow	788.59 CFM / 1340 m ³ / h
Size	530 mm × 350 mm × 350 mm
Weight	16,3 kg
Filter	HEPA 13
