RICHTER

VA3-S

CORDLESS WET, DRY AND STEAM
VACUUM CLEANER

 PURELIFE

Product Overview

The Richter VA3-S is a cordless, all-in-one floor care system designed to handle everyday dirt, stubborn marks and unexpected spills in a single pass.

Combining wet and dry cleaning with high-temperature steam, it delivers a hygienic finish without chemicals.

The rotating brush roll ensures thorough mechanical action across all sealed hard floors. With three cleaning modes, it adapts to different surfaces, providing effective cleaning right up to edges and even tackling carpets and rugs in dry mode.

Main benefits

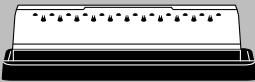

- Delivers 450 W of robust power and 7 kPa suction to manage both wet and dry messes efficiently
- Three cleaning modes: wet, dry, and steam
- High-temperature steam for hygienic cleaning
- Rotating brush roll for reliable dirt removal
- Self-cleaning function
- Dual-tank construction separating clean and wastewater
- Intuitive LED display with voice feedback
- HEPA filtration for improved air quality
- Interchangeable brush roll
- Fast and standard charging options

Modes

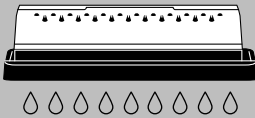

Steam mode:

Effectively dissolves grease and stubborn stains, from dried residues to heavy oil marks. Whether it's sticky kitchen floors, muddy footprints, or pet messes, the VA3-S makes tough stains easy to remove. Ideal for households with children and pets, offering hygienic cleaning without harsh chemicals.

Dry mode:

Ideal for carpets and rugs, dry mode efficiently captures dust and debris. The high-performance HEPA filter traps even the smallest particles, ensuring cleaner air and surfaces.

Wet mode:

When combined with vacuuming, wet mode significantly reduces cleaning time. The rotating brush absorbs water while the unit lifts dirt, hair, crumbs, spills and sticky residues in a single pass, providing a hygienic and thorough mopping experience. Only tap water is needed.

Strong mode:

Boosts suction by 60% and water distribution by 20% compared with standard mode, tackling the most stubborn dried-on dirt. Floors dry quickly and are ready to walk on immediately.

Core Features

Cordless Operation

Provides easy manoeuvrability and full flexibility.

Rotating Brush Roll – Continuous Floor Contact

Maintains consistent contact with the floor while lifting dry debris and liquid spills, delivering uniform results on tiles, laminate, vinyl and similar surfaces.

LED Display & Voice Feedback

The LED screen clearly shows the selected mode, battery level and system alerts, while voice prompts guide routine maintenance and operational steps.

Flexible Charging Options

Choose fast charging for rapid turnaround or standard mode for regular, energy-efficient battery management.

Self-Cleaning System – Ready for the Next Use

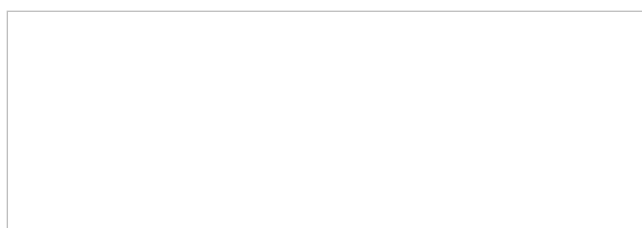

Placing the VA3-S on its base initiates an automatic cleaning cycle that rinses the brush roll and internal channels, minimising manual upkeep and keeping the unit ready for immediate use.

Specification

Rated power	450W
Voltage	21.6V
Battery	4000 mAh
Clean water tank capacity	600 ml
Dirty water tank capacity	800 ml
Running time - normal mode	45 min
Running time - steam mode	18 min
Charging time	4-6 hours
Steam heat up time	20~30s
Steam pressure	1 bar
Vacuum filter	HEPA Filter
Modes	AUTO, STRONG
Technology	
Noise level	75 dB
The machine weight	4.25 kg
Inner package size	788×350×30 mm
Machine with carton weight:	7.5 kg

Recommended for

- Homes with children, pets or frequent spills
- Users who prefer a chemical-reduced cleaning routine
- Busy individuals who prioritise efficiency
- Small offices, studios and clinics that need daily floor care
